INTRODUCTION

Group GDP491_G2: OCD APP

Member: **Nguyễn Việt Trung** - **Trần Tiến Đức** – **GD1201**

OCD is an app that helps student and guard can live better and work more efficiently at FU dormitory.

Not only helps, student to manage all the process and fees, but also accelerate the process of all *dormitory's* request.

OCD also enhance all the services to be more convenient and modern.

With OCD, guard team and admin team can always spend less time and workforce but gain better work efficiency.

OCD is created to bring useful connection between student and guard in dormitory life

Pains

- I'm exhausted sometimes
- Mistake happens usually
- Security is good but some student does not follow it
- It takes too much workforce from us to do the job by manual actions

GUARD

Gains

- I got good feedback from most of student
- Student helps me a lot in finishing my job
- This job is ok
- All is under control
- Mistake can be fixed

Gains

- Finally I can book my bed
- I want an easier access
- At least my ask is approved and my requirement has been fulfilled

STUDENT

Pains

- I'm so fed up with this process, I'm too lazy and tired to do, I have my own work to be busy for.
- Why always got me in trouble with wrong usage and payment?
- System interface is so ugly.

Demographics

Họ và Tên	Nguyễn Văn Sơn
Tuổi	55
Nghề nghiệp	Bảo vệ cty TN
Đơn vị	KTX FU-HL
Tình trạng QH	Đã lập gia đình

Bio

Bác Sơn là một bảo vệ có kinh nghiệm nghề nghiệp lâu năm. Hiện tại đã làm việc ở KTX - FU được gần một năm. Tuy nhiên vì bác cũng đã lớn tuổi nên đầu óc và trí nhớ có đôi chút giảm sút nên trong công việc bác đều phải rất tập trung và ghi chép lại mọi thứ thật kỹ lưỡng. Vì vậy sẽ tốn thêm nhiều thời gian hơn để hoàn thành các công việc.

- Thị lực không còn tốt
- Sức khoẻ có chút giảm sút

Needs and Goals

- Có một ứng dụng có thể giúp quản lý và xử lý các vấn đề về KTX
- Ứng dụng dễ sử dụng
- Giao diện dễ nhìn, chữ và nút bấm to rõ ràng
- Ứng dụng có tính năng báo cháy để tăng độ an toàn cho KTX, khi xảy ra sự cố có thể thông báo ngay về điện thoại để kịp thời xử lý

FIRST PROTOTYPE
– BASIC BALSAMIQ

FIRST TEST CONCLUSION & IMPROVEMENT

WEAKNESSES POINTED OUT	HOW WE FIX
Guard will not be able to read and understand english	Enlarge the font size for guard account Default Vietnamese
What happen when students cannot make an emergency call?	Add an emergency chat box for student to chat with guards
FAP Wallet should not let out on Home as a function, that's too redundant	Put FAP wallet inside payment. Just let balance show outside on a small cornet
Fire Alert is a special feature, should not let it out at HOME as a normal main function	Only let Fire Alert show up in a special pop-up, has its own design and only appear when needed
Spell Mistake	"Request" changed to "Form"
Guard will not be able to see clearly sometimes especially when doing some important process like USAGE COLLECTION	Add a voice to read for Guards.
RFID cannot be applicable due to unnecessary and it brings back too much hardship. Also expensive, and impossible to add to recognize meter ID. Also many RFID chips near each other, producing same waves at the same time, can create many conflicting waves which makes smartphone confuse and cannot detect the write wave.	Omit RFID, change to QR code and OCR only
Sitemap must not add both account types together because the website will not work, and it's impossible to create two parallel kinds of user in one account.	Must let guard account and student account be seperated. Two sitemap would be considered.

SECOND PROTOTYPE WITH INTERFACE TEST

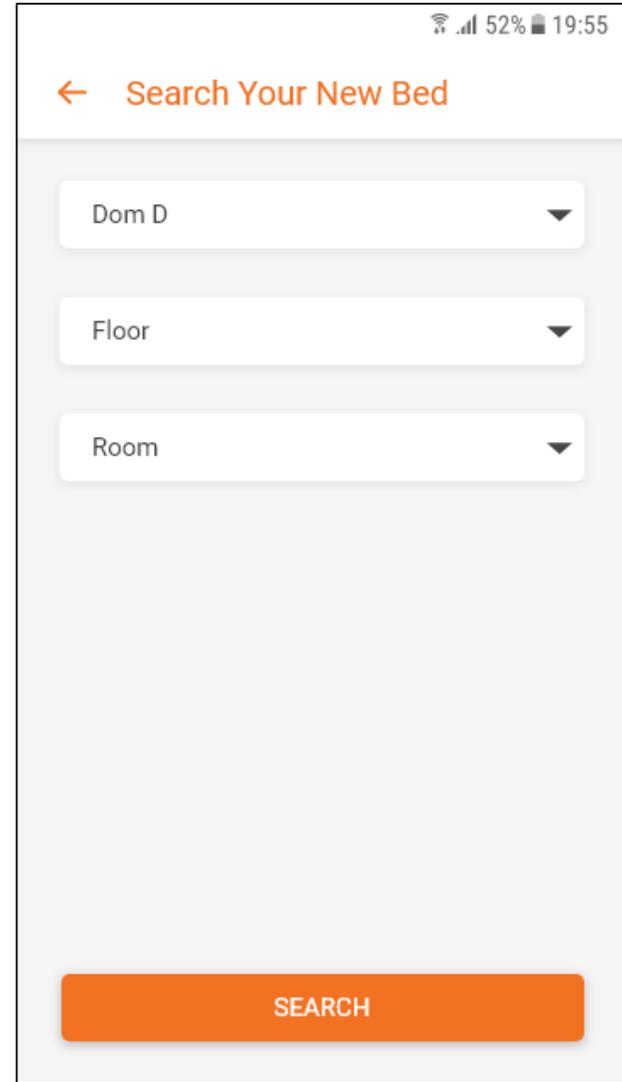

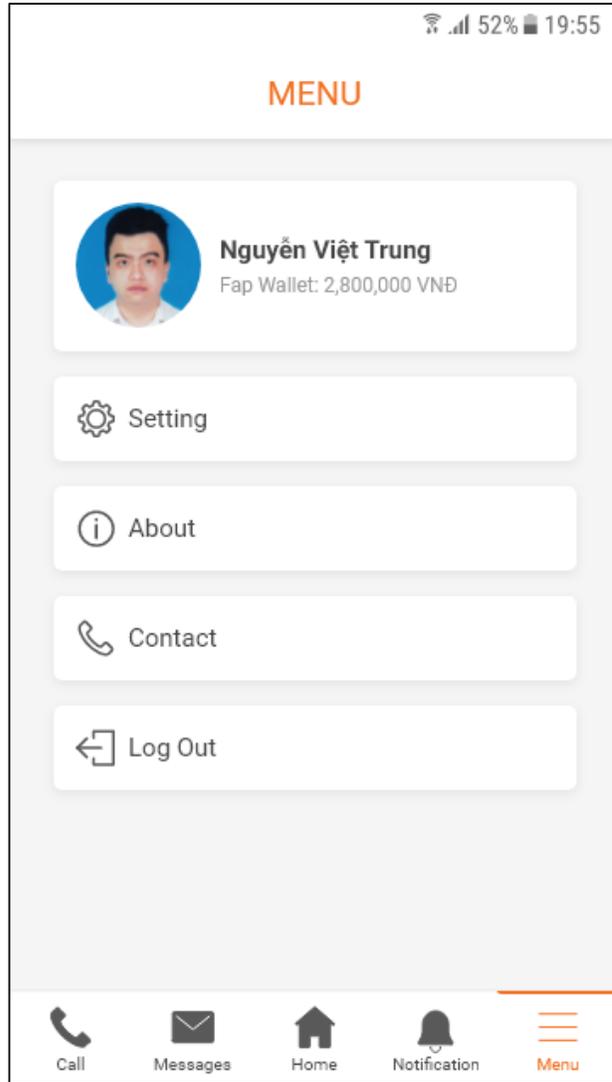

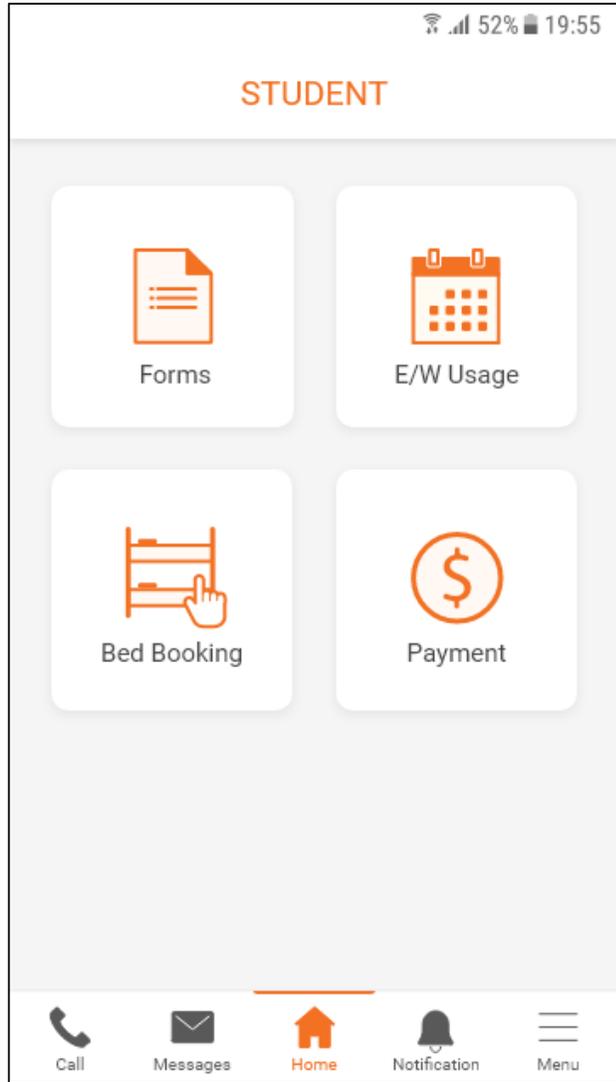

What 3 testers say about the interface	What we do
<ul style="list-style-type: none"> - Change colors and designs, draw more pictures, app too many words - Difficult buttons, enlarge - The app looks monotonous, old fashion, poor aesthetics, looks poor - The major and minor parts are not clear - Redesigned fire alarm screen for stand out more - The book bed section needs to add the empty bed list - The tables are uncomfortable, look like the stock market table - The color looks so eye-hurting - Don't understand the table to see if the electricity and water numbers are by period or by month, and how to perform? - Add/omit some information in Checkout/Maintenance form of Guard account - Add student/room list to check directly to guard account. 	<ul style="list-style-type: none"> - Redesign most screens - Draw more icon and image to replace words - Apple more shadow and add more boxes or cards - Change the way use colors - Change composition to make it clearer - Change table and components color, style - Change buttons style and active button area - Add/omit information in checkout/maintenance form - Add student/room list to guard account - Change EW Usage View of Student to view each month instead of semester - Add warning for guard if the usage collected is too large or negative comparing to last month's usage
