1 Introduced

What is FAP?

The FAP is an academic portal for teachers, parents, and students of FPT University system. Here, students follow the study, schedule, tuition, and notice from the school. In addition, the FAP is a bridge between the student an school through the requirements, forms, and the evaluation of the teacher's quality of teaching.

Define the problem

Who is using FAP?

Most parents, teachers, and students use the FAP. But the object most used is still student.

What is FAP created for?

FAP provide about mark report, schedule, attendance, forms and notices from the school to the student.

Advantages and disadvantages of FAP

ADVANTAGES

Sufficient, details, necessary information for students.

Convenient for tracking student learning.

Good connection between school and student.

DISADVANTAGES

The Website interface is simple, incommodious.

Multiple steps to sign in, unable to automatically save login information after each use.

No application on the phones.

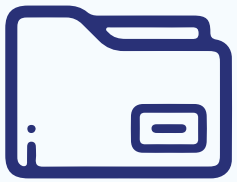
Survey

292 Responses

66,1%
Using mobile

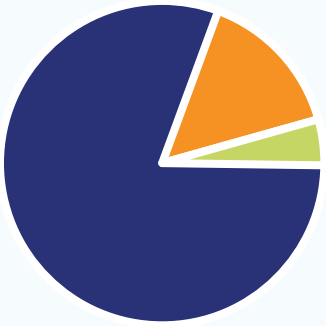
Laptop (Computer)	33,6%
Tablet	0,3%

Schedule	98,6%
Attendance	92,5%
Mark report	88%
Notices	76,4%
Forms	19,2%



33,2%
Finding the current interface of the website (FAP) difficult to use

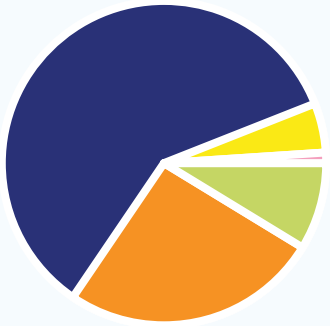
Normal	60,6%
Easy to use	6,2%



80,5%

interested in the FAP version on the phone

Normal	15,1%
Unnecessary	4,5%



34,6%

rated the experience of using FAP website as bad and very bad

Normal	59,2%
Good and very good	6,1%

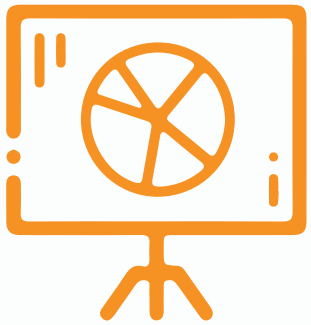
75,3%

willing to use FAP version of the application on their phones

Not know yet	23,3%
No, i like the current website	1,4%

Why?

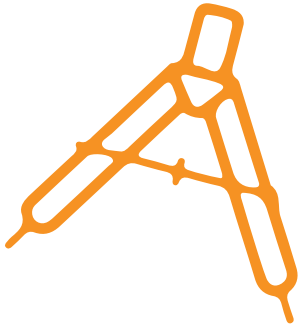
Bad experience | **Disadvantages** | Desire



Bad experience

34,6%
rated the experience of using FAP website as bad and very bad

6,1%
rated the experience of using FAP website as good and very good



Disadvantages

- Sign in multiple times - multiple steps.
- There is so much information, it is very difficult to find.
- The interface is difficult to use.
- There are quite a lot of system errors.
- Information is not really intuitive and easy to grasp. Need to rearrange.

Desire

- Automatically notify for new updates.
- Popup notifies that the subject has nearly 20% absent, remind to go to school when the subject was 20% absent.
- Nice interface and convenient to use more quickly.
- Events, workshop in each major in the new notice section.
- Save passwords, no need to log in more times.

Why?

- The trend of using phones is growing and widely available worldwide
- Keep up with the trend of technological era
- I made this app to satisfy users need
- Based on some disadvantage

Goal

The app responds to the convenience and the best experience for students

There are more than 90% of students feel not really happy about the experience on the website version

We all wish that students will have more fun and good experience using Learning Management System.

So we will design an application available on the Google Play and App Store.

Goal

Is a main communication channel between school and students

- There are many comments from students are not really excited about news channels on the website version.
- Thereby we will redesign the interface from the school news channel
- Additional notification feature phone operations

Promote communication and towards extracurricular activities

- Nearly 70% of students use the phone rather than laptop. So with a desire to bring a more modern and more dynamic in the university environment.
- We will add a communication channel from the clubs, events and workshops. Create a social environment that encourages students to engage more in extracurricular activities.
