With the initial step of laying the foundation for the story of "Coffee culture", in 2021, we want to exploit this story in broader aspects. That is from the story of diverse and colorful coffee drinking culture to the coffee culture in life. With Mr. Brown marketing communication campaign "Awake your freestyle", through the online media platform, we want to build the image of Mr. Brown as a brand representing openness, progress, creative inspiration, a companion to young people, and help them assert their own "style". Mr. Brown brand has produced 5 types of coffee flavors to suit each person's unique "Style". Especially, 3 flavors that we're advertising for the brand that is the Chocolate Flavor Coffee, Blue Mountain Blend, Cappuccino. From there, customers can freely choose their favorite flavor.

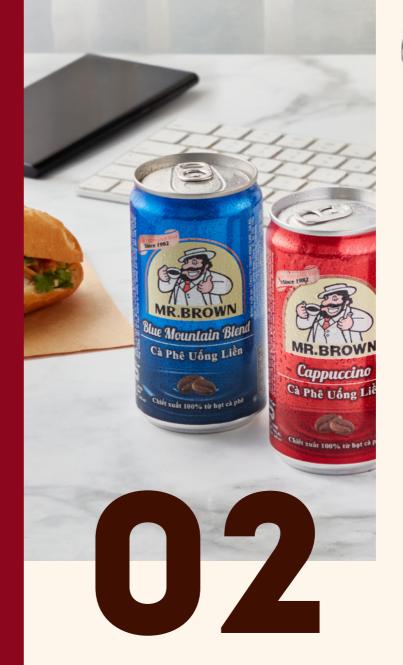

The campaign is carried out by members of Goao Team in conjunction with the Admicro unit. Through this campaign, Mr. Brown wants to stimulate young customers to confidently express their freestyle. From there, it emphasizes the secret of self-expression through Mr. Brown's diverse products.

Mr. Brown's marketing communication campaign "Awake your freestyle" lasted for 1 year from 4/2021 to 3/2022 with a cost of 1.7 billion VND. Goao Team's project is in the first 4 months of the campaign.

Goao Team

"Goao" is Vietnam seized from "wow". It's an emotion, a human state. In short, the name of the group wants to show that people will always be admired and amazed at what my team does.

2.1.2. About Admicro

admicro

Overview Admicro

This is the first project that Goao Team cooperates with Admicro to launch a media campaign for the coffee brand Mr. Brown "Awake your freestyle". Admicro is a pioneer in providing online advertising platforms in Vietnam, Admicro (a block of VCcorp group) was born with the mission of being a bridge between businesses and millions of Vietnamese Internet users. After 13 years of establishment and development, Admicro has launched a wide range of products in many fields, with a quality and reputable advertising network.

Admicro owns a pioneering advertising system with more than 200 leading reputable websites. With coverage of more than 33 million readers (equivalent to 90% of Internet users in Vietnam) and the strength of technology powered by parent company VCcorp, Admicro is always at the leading position in the Vietnamese market.⁽¹⁾

Strengths of Admicro

3 strengths that help Admicro win over competitors:(2)

Admicro's high applicability of technology to products

Admicro owns many products and product packages that help improve the communication capabilities of businesses. The product package also has a lot of general packages running for a whole communication campaign.

Owning technology, the ability to self-produce ads and content gives Admicro the advantage of being able to customize products to the needs of each business. The company also owns the most advanced technologies, including virtual reality products, that enhance the user's experience. Admicro always has a platform of all products with the highest technology application and combines both traditional and online marketing to create the most effective communication for businesses.

Always ahead in thinking, going very far and very different from the market

Possessing high-quality Big Data collected from a deep and wide ad network (covering 96% of Vietnamese internet users with 5 content pages), Admicro can understand the behavior, tastes and needs of real estate buyers.

Along with that, targeting technology helps Admicro target messages to the right target audience based on demographics, location, behavior, and habits on the internet. They also predict the interesting trend of readers soon to be able to go ahead. Therefore, media products and solution packages are always designed based on the viewer's psychology so that they get the best experience.

The ecosystem of good network channels enters the niche

Admicro in particular and VCCorp in general have a system of specialized media pages serving different audiences. This represents Admicro's foresight and second competitive advantage after technology. Most readers today when reading newspapers do not notice that. More than 40% of major newspapers today are under VCCorp and Admicro exclusively exploiting media. That is a great advantage to help businesses approach customers in a unified and horizontal direction.

Introduction

2.1.3. About Our Project

With the initial step of laying the foundation for the story of "Coffee culture", in 2021, we want to exploit this story in broader aspects. That is from the story of the diverse and colorful coffee drinking culture to the coffee culture in life. Based on our research⁽³⁾, we find that young people are always looking for new experiences or always want to express their freestyle. From there, we came up with the idea for this Mr. Brown media campaign and named the campaign "Awake your freestyle".

The campaign is carried out by members of the Goao Team and the Admicro unit. Through this campaign, we want to increase brand awareness and spread out the campaign concept into online media platforms, increasing the brand love for users. Mr. Brown is the first brand in the Vietnamese coffee market to run a campaign towards the concept of encouraging Vietnamese people to confidently express their own distinct style. The campaign is aimed at an audience of 18 to 35 years old. They are mainly office workers and students.

Based on the AIDA model, we divide the campaign into 3 stages. Each stage has a different goal. First stage done to build people's awareness about the brands and products. Second stage is the booming concept that makes people interested and love the brand's products. Third stage is implemented to increase customer activation. Three stages connect with each other based on the correct psychological sequence when buying a customer's product. Goao Team cooperated with Admicro company in the first 2 stages of the campaign.

2.2 Introduction of Our Client and Their Products

Overview Company

Mr. Brown is considered a famous brand in Taiwan according to Vnleader newspaper.

(4) In the Vietnamese market, the brand is still not popular with coffee consumers.

(5) Therefore, the brand wants us to build a campaign to help them grow stronger in Vietnam.

Firstly, we will introduce King Car Group - The mother brand of Mr. Brown.

• King Car Group - The Group behind Mr. Brown (6)

King Car Group, established in 1956, has been operating for more than 60 years as a leading famous corporation in Taiwan with more than 6 subsidiaries and 13 affiliated factories.

In 2016, King Car invested more than 500 billion VND to build a factory in Nhon Trach, Dong Nai. Capacity up to 500 cans/min, the output can reach 60 million barrels/year.

Canned coffee is the main product of King Car in Vietnam, in addition, there are coffee capsules, canned milk tea, fruit milk, drinking yogurt, Kavalan alcoholic beverages, Buckskin Beer.

Brand of King Car

Mr. Brown Coffee and Their Product

According to Vnleader newspaper, **Mr. Brown** is a leading brand in Taiwan, but is still not popular to coffee consumers in Vietnam. Mr. Brown presents in more than 32 countries over the world.

Mr. Brown received product certification for health and food certification of GMP standards of Taiwan. (7) 100% pure Mr. Brown's coffee beans are from Honduras, Jamaica, Brazil, Indonesia,... The product is drawn from the quintessence of coffee culture from famous coffee countries around the world.

Mr. Brown's coffee has 5 flavors: Chocolate Flavour Coffee, Blue Mountain Blend, Cappuccino, Vanilla Flavor Coffee, Iced Coffee.

Especially, 3 flavors that we're advertising for the brand are the Chocolate Flavor Coffee, Blue Mountain Blend, Cappuccino. (8)

Chocolate Flavour Coffee

Specification 240ml

Mr. Brown Chocolate flavored coffee is created by a blend of the purest ingredients such as 100% pure coffee extract, blended with cocoa powder, milk powder, granulated sugar combined with other ingredients natural composition of vanilla extract. All combined to create a line of canned milk coffee with perfect flavor, unique, sweet, and fragrant.

Blue Mountain Blend

Specification 240ml

This coffee line is produced by a special blend recipe from Blue Mountain coffee beans - Jamaica, Mr. Brown Blue Mountain canned coffee has a smooth taste of milk blended with aroma, sourness, bitterness, and mellowness, creating a great taste.

Chocolate Flavour Coffee

Specification 240ml

"Cappuccino" is a classic Italian coffee that is loved all over Italy and around the world. Cappuccino Italian means foam coffee. Because of the warm and romantic character of the Italians, the name Cappuccino translates as "Double Love". Since then, King Car has launched Mr. Brown Cappuccino canned coffee with Italian style from the delicious, fatty taste of cream and chocolate. This coffee line has helped Mr. Brown spread throughout Europe and America.

These are three main flavors that the brand wants to bring deeply into the Vietnamese market. Cappuccino and Chocolate Flavour Coffee products aim at the female audience because females love the sweet, gentle taste. Blue Mountain products aim at a male audience. The taste of this product is a blend of sweet, sour, and bitter. Therefore, it is more suitable for men's taste. Currently, these three products are very well received according to the original target of the brand.

Mr. Brown's Core Values and Missions⁽⁹⁾

Therefore, the brand will attract more potential customers.

Their Claimed Responsibilities

Particularly for the food and beverage industry, the brand leader Mr. Brown commented: Every day in the world more than 1 billion people drink coffee, and to satisfy such a huge coffee market, the potential to affect the rainforest or other forest and change the economic value of the coffee tree is very big. The issue of balancing the supply of coffee beans with environmental protection is a topic that requires serious attention from global coffee product suppliers. Faced with this issue, Mr. Brown is involved with the Rainforest Alliance, an international nonprofit organization that maintains and conserves rainforest ecosystems in ways that benefit business and society.

Along with that, to ensure a friendly production process with the environment and reduce pollution. Coffee factory system Mr. Brown did: (11)

- 1. Set up wastewater and flue gas treatment equipment to reduce water and air pollution.
- 2. Plan and implement an annual carbon footprint reduction plan.
- 3. Hire resource manufacturers to recycle scrap iron or other recyclable packaging materials.
- 4. Partner with professional suppliers to recycle and reuse coffee grounds to make textile products or deodorant products.

With the responsibilities that the brand has done, it will contribute to improving the quality, brand value, and brand reputation. It will be the foundation for the brand's campaign to be received and loved by everyone. Not only that, the active contributions from Mr. Brown have shown the brand's concern to customers, the desire to bring values and positive messages. From there, create a premise to develop this campaign and contribute to increasing profits for the brand.

Introduction

2.3 **Company Situation Analysis**

Mr. Brown Brand Analysis 2.3.1

SWOT Analysis

- The main ingredient of the product is imported Arabica coffee. It is the material that makes the difference from other brands.
- Modern and automatic production lines ensure product cleanliness and safety.
- The brand has wide distribution scale and it has appeared in 32 countries.
- Mr. Brown has new and diverse coffee flavors.
- Brand responsibility to society is extremely good. It will be the foundation to ensure a positive and sustainable brand image.
- The brand limited budget in implementing marketing communication campaigns.
- Mr. Brown is still not popular with coffee consumers in Vietnam.
- · Mr. Brown has not fully exploiting the unique flavors different from the market.

- Other brands have less variety of products, common flavors.
- In 2021, competitors are not stepping up their communication activities.
- Competitors have not launched campaigns that deeply address the needs of young customers to express themselves. That is considered a growing demand and especially in Asian countries.
- Many large competitive brands have a certain position in the minds of consumers.
- Vietnam's coffee culture: Strong coffee in the "Phin".
- · The COVID-19 pandemic affects the campaign's communication activities

Brand Positioning

International: Mr. Brown is the leading coffee brand in Taiwan.

Vietnam: Mr. Brown is a coffee brand for young people.

To position the Mr. Brown brand for young people, the brand uses the following methods:

- 1. Positioning based on features: With small, compact and convenient features, the product is very suitable for busy young people.
- 2. Positioning based on use: Young people have a lot of things to do, they need products to keep them awake to get the job done.
- 3. Positioning based on emotion: Brand implements media campaign "Awake your freestyle" to integrate emotional messages. This message helps young people confidently express their personalities and interests. Therefore, the design style and content of the article are very positive, dynamic, and youthful towards young people.
- 4. Positioning based on problems and solutions: Many young people find traditional coffee quite heavy, they want to find a light coffee with a variety of flavors to experience and enjoy while still being convenient. Not only that, they need new and diverse products to express their personality that traditional coffee cannot meet this need.

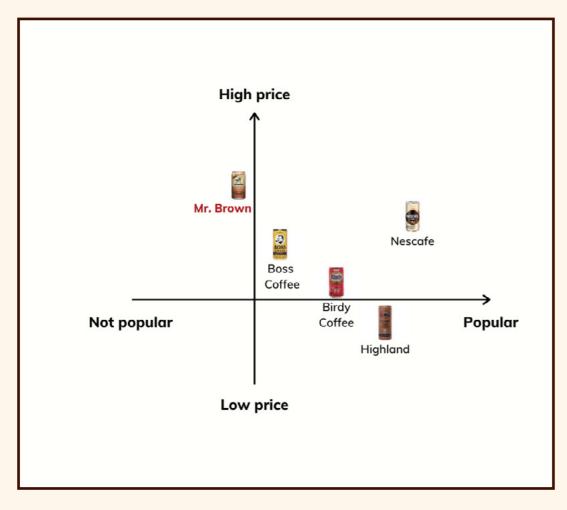

Point of difference

Mr. Brown's main ingredient is Arabica coffee carefully selected from famous coffee growing areas such as Honduras, Blue Mountain - Jamaica, Brazil, Indonesia. Meanwhile, most of the competitor's canned coffee products are made from Robusta beans grown in Vietnam.

Mr. Brown has a variety of flavors to give customers the freedom to choose. Other canned coffee brands usually have only 1 or 2 basic types including black coffee and milk coffee. Particularly, Nescafe coffee has 5 types of products, but they are all common flavors, less special than Mr. Brown's chocolate or vanilla coffee.

Brand positioning map in the coffee market

Canned coffee is accounting for a small part of the system of coffee products in general, the quantity sold is also very significant. Canned coffee is extremely convenient and helps you wake up immediately when you work or study stressfully. Therefore, many brands are launching canned coffee products in Vietnam such as Highland, Boss Coffee, Nescafe, Birdy Coffee. Those are also the competitors of Mr. Brown's coffee.

Based on the brand positioning map, it can be seen that:

About the price

- Highland has a cheaper price than other brands.
- Mr. Brown has the highest price because the price of Arabica coffee is higher than Robusta coffee.

About the popular

- Nescafe has the most popular compared to other brands.
- Mr. Brown has the lowest popularity because Mr. Brown is still not popular with customers in the Vietnam market.

2.4 Prospects and Opportunities from the campaign

In fact, there are many campaigns of businesses that fail and that seriously affects their image. To make a successful campaign, it is not an easy task, it requires knowledge, expertise, creativity, detailed planning,...The important thing is that everyone is always together and trying their best to make that campaign. We always work hard every day because everyone wants the campaign to be successful. When the campaign is successful, it will bring many opportunities for the parties.

For the Goao Team, we have more experience on how to do actual media campaigns. This is the first time we have joined Admicro, we have learned a lot from our colleagues in the company such as teamwork, design skills, content writing skills, how to create good ideas, how to manage time effectively... Besides, everyone will see the team's ability to work in the campaign. Consequently, the Goao Team will be working in big companies in the media industry.

For Admicro, cooperation opportunities between Admicro and Mr. Brown will belong. Because Mr. Brown believes and wants Admicro to do more campaigns to help the brand grow more and more. In addition, Admicro affirms its leading position in the Vietnamese advertising market. Admicro will have many opportunities to cooperate with other businesses. Finally, successful campaigns will help increase profits for the company.

Moreover, when the campaign is successful, Mr. Brown coffee will build a beautiful brand image in people's eyes and be loved. We build the image of Mr. Brown as a brand representing openness, creative inspiration, a companion to young people, and help them assert their own "style". Not only that, Mr. Brown will be mentioned more in the Vietnamese market. It will become familiar to consumers in Vietnam, it is no longer a strange name. Coffee Mr. Brown becomes an indispensable drink for office workers. Moreover, Mr. Brown will increase sales after the success of this campaign.

In Conclusion

Mr. Brown's 2021 media campaign is a major campaign of the year for the brand. The brand's cooperation with Vietnam's leading agency Admicro is a guarantee for the explosion of this year's campaign.

The Goao Team is honored to participate in this campaign. The participation process of the Goao Team lasts 4 months of the whole campaign in 2021. Being involved in all stages, from making proposals and implementing campaign plans is a great experience for the Goao Team.

All information about the implementation of this campaign by the Goao Team is clarified in the following chapters of the production book.

Campaign Overview

3.2 Target Market and Audience Insights

Market research is an essential business tool in a competitive environment. Therefore, the better we understand our prospects, the more success we can achieve. According to mekonginfo, understanding user local target groups and their shopping habits will help us find the best customer insights. (14)

Through market research and customer insights, you can form new product development ideas and choose the right positioning strategy for that product in a specific market.

3.2.1 Market Truth

According to Admicro Social listening 2020, canned coffee is not popular yet in Vietnam but Millennials might accept new experiences (15)

- Vietnamese consumers are not in the habit of buying and enjoying canned coffee.
- The taste of canned coffee is not as strong and delicious as drinking out of a restaurant or making it yourself.
- Canned coffee is still in the TOM of consumers when they need to enjoy it immediately.
- Trends of online purchases are increasingly popular.
- Generation Gen Z and Millennials might accept new experiences and change if we can educate them.

The golden age of the convenience store (15)

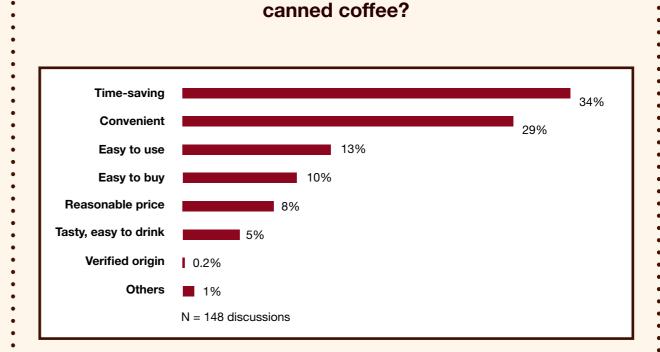

- The Vietnamese retail market is seeing the rise of convenience store chains everywhere.
- Both Vietnamese and foreign businesses are in a state of fierce competition to build their brands and gain market share.
- It is the rise of the convenience store chain that makes consumers benefit the most.
- The advantages of convenience stores are 24/24 service, clear origin, price list, seats, and air conditioning. Students, office workers, and young people are the most frequented.

In conclusion

- The opportunity for canned coffee in the Vietnam market is growing
- Canned coffee is suitable for young people who have a habit of buying at convenience stores

3.2.2 Market Research

Measured from online channels: social networks, news, forum,... From 01/02/2020 to 31/01/2021

Why do customers choose

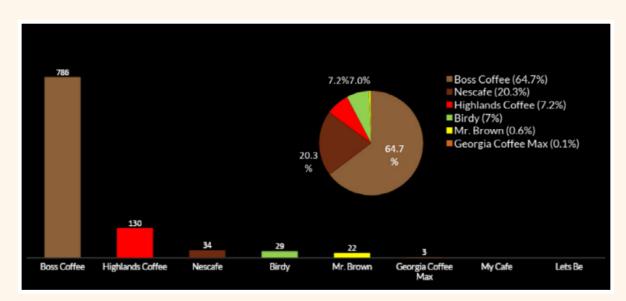

Admciro Customer Listening Market's Canned Coffee 2020

- Customers choose canned coffee because of time-saving, the highest percentage is 34%.
- Customers choose canned coffee because it's convenient to carry, accounting for 29%.
- Customers choose canned coffee because of its ease of use, accounting for 13%.

In conclusion, in the future, when life gets busier and busier, canned coffee will become more and more popular because of its convenience.

29

The most popular coffee brands in Vietnam

Admciro Customer Listening Market's Canned Coffee 2020

When the brand of canned coffee has a methodical Marcom strategy/ campaign will be known and paid more attention to, especially by young people - who are often easily attracted to the original content, private, fresh but close. The campaign of Boss Coffee combined with Den Vau is a typical example.

Den Vau becoming a brand ambassador was the main factor that caused the mention of Boss Coffee in October. Specifically, the number of mentions of Boss Coffee increased 17 times after TVC. This coffee is so strong! by Den Vau was released. In addition, the posts on Den Vau PR's Fanpage about the product also attracted great attention from the community. Comments "Because Den Vau bought Boss", "Coffee as good as Black" appeared with great frequency, confirming the influence of Den Vau in Boss Coffee's campaign.

Mr. Brown needs to focus on Gen Z and millennial audience with a concept that focuses on that audience's emotions.

3.2.3 Target Audience

Want to drink coffee to stay awake but not able to drink traditional coffee with a strong bitterness which is said to be the standard for coffee tastes in Vietnam.

Gen Z and Millenials have to work and study every single day. So coffee is something they need most. But they can't show their personality into it.

	Target Audience				
Sex	65% female and 35% male				
Age	18-35

3.3 Big Idea

3.3.1 Customer Insights

Based on the research of Goao Team, we realized that the demand for coffee of young people is always high. But besides satisfying their coffee addiction, young people also want to find a convenient coffee product, and at the same time can express their personality and personality in it. At the same time, young generations are always eager to find new experiences for a life that is never boring.

Insight: "My coffee taste is free, not fixed to a specific type. I choose coffee according to my daily needs" is the statement of young customers".

3.3.2 Mr. Brown's Strategic Communication Concepts

Mr. Brown is a brand with a dynamic and youthful style.

The logo of the label has the main color tones of red and yellow. These colors are bright, energetic, suitable for young people.

The slogan "Always be there" makes Mr. Brown like friends for the audience. Through choosing the brand's colors and slogans, Mr. Brown wishes to present itself as a brand that can be a partner to be friends for an audience.

In 2020, Mr. Brown ran the "Colorful Coffee Culture" concept. By choosing the theme of culture, Mr. Brown has shown that they are willing to accept differences. This is consistent with their brand image and identity.

2021's concept

For young people, their taste is often not fixed in a single form. In enjoying coffee, today they like a little latte for gentleness. Tomorrow, they can change to cold brew for refreshment. When needed, they will want a strong coffee to wake up the day.

Young and free

For young people, finding new experiences in a daily routine can make them more excited. They are at the age when they want to show themselves most, willing to take on new challenges. So expressing yourself through the smallest things.

So this concept can understand that:

Freedom of Choice - Young people have the need to show their choices as well as their lifestyle through each product they use every day.

3.3.3 Big Idea: Đánh thức Gu tư do

Based on the concept **Young and free**, Mr. Brown needs to convey the personality, freedom, and bravery of young people.

From the insight, the Goao Team came up with the big idea "Đánh thức gu tự do" mean "Awakening the taste of freedom" in this campaign.

Mr. Brown helps customers awaken their "freedom" through a variety of Mr. Brown's products.

With this big idea, Mr. Brown conveys two ideas:

- **1. Wake-up**: Arabica ingredients ensure the caffeine concentration to meet the product's function.
- 2. Free of choose: When it comes to the target audience's taste, the coffee doesn't have to be dark and bitter, but whatever we like, that taste will become our taste.

The word "Đánh thức" has 2 different meanings: "Awake". The word "Gu" has 2 different meanings: "Style" and "Taste". The word "Tự do" means "Free".

3.3.4 Key Messages

Mr. Brown offers a variety of canned coffee flavors to help you discover and express your self - a colorful and distinct being.

The slogan "Awaken your freestyle"

3.4 **Message Strategies**

A message can only be conveyed well when it is applied with appropriate and different strategies.

This year's campaign mainly focuses on improving brand awareness and image in customer's minds. Therefore, Mr. Brown's brand positioning becomes the most important strategy.

Brand Positioning 3.4.1

Brand positioning has been defined by Kotler as "the act of designing the company's offering and image to occupy a distinctive place in the mind of the target market". (18) In other words, brand positioning describes how a brand is different from its competitors and where, or how, it sits in customers' minds.

So, the brand positioning this year deployed all the information of the campaign uniformly through keywords related to big ideas such as awakening, diversity, freedom...

All images and content communicated on the fanpage through posts or iTVCs emphasize these keywords.

3.4.2 Slice-of-life Advertising

Slice-of-Life Advertising is an advertising technique in which a real-life problem is shown in a dramatic presentation and the product advertised represents the solution to the problem. (19)

In this campaign, Mr. Brown chooses products and people as the center while problems - solutions are clearly emphasized with the concept of slice-of-life advertising. This is reflected in the product's iTVC series, all three SKU appear throughout all 3 iTVC.

Advertising Appeals 3.4.3

Mr. Brown also focuses on appealing to your audience's emotions through strong imagery, impactful text, or powerful music. An emotional advertising appeal depends more on feelings and perceptions than logic or reason to provoke action.

In this campaign, we used Personal Appeal and Emotional advertising appeals (20)

- Personal Appeal: People are chosen as the center throughout the main activities of this year's campaign.
- Emotional Appeal: The emphasis on the freedom and choice of young people has emphasized the emotions of users when communicating this campaign.

3.4.4 Key factors delivered through key messages

The brand delivers 3 keys through key messages:

- 1. Functional of the product: Arabica ingredients ensure the caffeine concentration that helps consumers stay awake for a working day long.
- 2. Characteristics of Target Audience: Young people who have an open mindset and a free lifestyle. Enjoy the diversity and am always willing to try something new. Asserting their personal identities and trying to show personality in their way of life
- **3. Characteristic of Brand:** Diversity 3 SKUs with unique taste offer many options for consumers who find new experiences in a daily routine.

The concept of 2021 link and develop the concept "Colorful Coffee Culture" of 2020:

- From the standard "Coffee must be dark and bitter" to your own personal identities: "Coffee does not have to be an old-style"
- From "Only one type of Coffee" to "Ready to try any kind"
- From "One taste" to "One taste per day of the week"

3.4.5 **Campaign's Tone of Voice**

- Youthful: catch trend, funny
- Clear: the information communicated is easy to understand for the target audience

Phase 1: Pre-Campaign Planning

- Campaign Ideation
- Proposal Development Process
- Contingency Plan

4.1 Campaign Ideation

The concept of the campaign is expanded from the concept of 2020. Last year, Mr. Brown exploited the cultural aspect with the story Colorful Coffee Culture. With that perspective, Mr. Brown has approached a common point between the Vietnamese and international markets. This year when the cultural story has become familiar, Mr. Brown is forced to approach from a different perspective.

Continuing the cultural story of last year, the Goao Team and Admicro have come up with 2 options for this year's concept.

Option 1: Eternize traditional aroma - Maintain timeless taste (Lưu hương văn hóa - Nguyên vị thời gian)

The weakness of coffee cans is to create a chemical feeling, not the right quality with an identifier with a modern, fast, compact, and convenient design language. Coffee gives users a sense of mystery and character, so the classic element makes coffee look more attractive. This is also the reason why many coffee shops prefer a nostalgic and traditional style in Vietnam (Cộng coffee, "Vợt" coffee).

Based on the fact that Mr. Brown has not changed the packaging design language since 1982, bringing the classic colors available in the brand identity. Taking advantage of the unique strengths available that are not mixed with current coffee brands. Mr. Brown sends the "ORIGINAL" flavor to the coffee can.

Therefore, the first concept Goao Team and Admicro propose is "Luru hurong văn hóa - Nguyên vị thời gian" on Retro generation. The keyword to express the unique taste of Mr. Brown: ORIGINAL (taste of time, taste of culture, taste of Mr. Brown coffee).

Option 2: Awake your freestyle (Đánh thức gu tự do)

For young people, their taste is often not fixed in a single form. In enjoying coffee, today they like a little latte for gentleness. Tomorrow, they can change to cold brew for refreshment. When they need it, they will want a strong coffee to wake up the day. For them, finding new experiences in a daily routine can make them more excited. They want to show the freedom of choice as well as their lifestyle through each product they use every day.

Mr. Brown's decision

Based on this concept, the Goao Team proposed the second big idea "Đánh thức gu tự do" mean "Awakening the taste of freedom" in this campaign. Coffee products corresponding to the working days of the week need alertness and need to express taste.

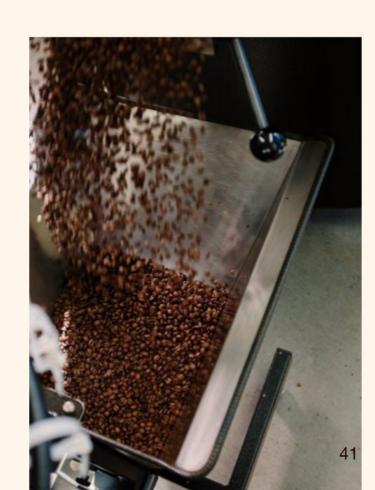

Mr. Brown agreed to the proposal of Goao Team and Admicro. They want their brand to be associated with young people and modernity, so the expression of "Awakening the taste of freedom" or can be understood as "Awake your freestyle" will easily achieve their purpose.

,.....

With this big idea, Mr. Brown conveys two ideas:

Wake-up: Arabica ingredients ensure the caffeine concentration to meet the product's function.

Free of choose: When it comes to the target audience's taste, the coffee doesn't have to be dark and bitter, but whatever we like, that taste will become our taste.

4.2 Proposal Development Process

The process of Goao Team participating in this year's Mr. Brown campaign is divided into 3 stages. The first stage is the Proposal development process. The second stage is key activities production. And the final stage is content air.

The proposal development process lasts for about 1 month, starting from 2nd April to 10th May.

Time	Task
April 2	Admicro received a brief from a Mr. Brown Vietnam.
April 5	Admicro contacted Goao Team to propose cooperation.
April 6 - April 10	Admicro and Goao Team complete the proposal.
April 12	Admicro presents the first proposal.
April 13	Mr. Brown gave feedback. Mr. Brown wants to combine 2 concepts and implement ideas for iTVC and photo books.

April 17	The second proposal is sent to Mr. Brown Vietnam.
April 19	Mr. Brown Taiwan feedback about they don't want to do all 3 iTVCs on the same day.
April 20 - April 23	Goao Team and Admicro find an alternative to implement iTVC. The iTVC has finally been transferred to Admicro's Saigon production team.
April 24 - April 27	Goao Team and Admicro's production team in Saigon together fix iTVC's treatments to match performance.
April 28	The third proposal (updated iTVC treatment) was approved by Mr. Brown Vietnam, then sent to Mr. Brown Taiwan.
April 29 - May 6	Mr. Brown Vietnam and Mr.Brown consider the third proposal.
May 7	The third proposal (updated iTVC treatment) was approved by Mr. Brown Taiwan.
May 10	The cooperation contract between Admicro and Goao Team was signed.

4.3 Contingency Plan

Risk management is the process of identifying, assessing and controlling threats to an organization's capital and earnings. (21)

In the process of implementing a communication campaign, risk management will help brands to implement the campaign's ideas in the most consistent and clear way.

During the time Goao Team participated in the project of Mr. Brown, we're up to date with possible problems and ways to deal with them. There were issues that happened and the pre-planned risk management made the campaign less damaged.

Risk	Happened or not?	Consequence	Solution
Internal communication errors cause information between departments to be inconsistent. This prevents customers from receiving accurate information.	Yes	 Customers did not receive information that iTVC will produce in Hanoi (according to the original plan). Goao Team and Studio planned to produce in Hanoi but couldn't make it. 	 Admicro was forced to transfer iTVC to the production team in Ho Chi Minh. Goao Team is responsible for editing 3 cuts of the first iTVC.
COVID-19 pandemic increased in major cities, especially in Hanoi and Ho Chi Minh city.	Yes	 The number of cases is increasing rapidly, quarantine is established. The production progress is delayed because ekip couldn't meeting. 	iTVC was urgently produced in May in Ho Chi Minh city, when COVID-19 was not serious. Meeting of less than 30 people are still allowed to hold.
Materials cannot be produced due to the COVID-19 pandemic problem.	Yes	 Goao Team produced concept photos but couldn't take lifestyle photos. Fanpage content direction must be changed. 	Fanpage content content direction has been changed, focusing on epidemic content more to pull natural interaction.
Mr. Brown has 2 customer classes, Mr. Brown and Mr. Brown Taiwan and Mr. Brown Vietnam. This slows down the feedback process.	Yes	 2 photos album were take at least 3 weeks to process feedback. The lifestyle set has been canceled due to slow feedback. By the time the feedback process was completed, COVID-19 had increased in Hanoi. 	Goao Team has informed Admicro to closely monitor the customer feedback process, ensuring the feedback process is up to date with the production timeline.
The business situation of the brand is affected by COVID-19, causing the brand's revenue to decrease.	No	Mr. Brown will not pay in due course.	 Admicro will evaluate Mr. Brown based on work history. With a good working history, Admicro can plan to delay the payment of Mr. Brown.

Phase 2: Campaign Execution

- · Key activities:
 - iTVC
 - Photoshoot
 - Key Visual
- Fanpage content direction
- Timeline
- Campaign Budget

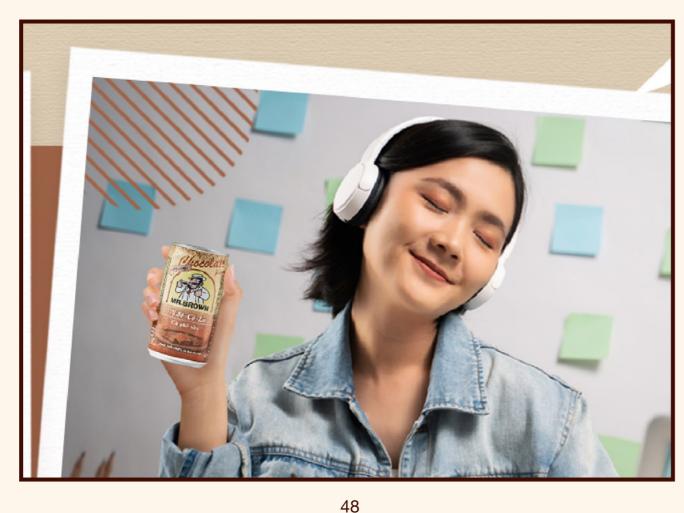

Phase 2: Campaign Execution

The campaign was launched on May 2021. Our team participated in the production of iTVC (providing ideas, adjusting scripts, drawing storyboards), producing a set of photos, besides participating in activities to build fanpage content direction.

This is the phase that our team has to work on the most because these main activities will play a very important role in Mr. Brown's "Awakes your freestyle" campaign. It includes: The series of iTVC, the album photo (transparent BG, lifestyle, concept), and key visuals for this campaign. Through these main activities, the image of the coffee brand Mr. Brown will be known to more people, through which it also shows the personality, as well as the meaningful messages that Mr. Brown wants to convey to everyone.

The idea is based on the youth and freedom of young people through their daily lives with the simplest and most intimate aspects. Social media, visual production, and online advertising are the main tools for this campaign. All of these key activities are implemented at a cost of 448.000.000 VND.

5.1 Key Activities

5.1.1 iTVC

In this campaign, the series of iTVC is the key material that services fanpage content, at a cost of 415.000.000 VND. This series includes 3 videos with different content and purposes, in detail, the main communication channels/ tools are Facebook and display ad/ banner ads. The time of posting is going to be May, November, and December. Through this series of videos, it shows the brand personality, the target audience of the brand and especially the main message that awakens your freestyle, along with the positive energies that inspire young people.

In the first video, the insight of Mr. Brown for customers has been shown very clearly through specific images, it's fun to be yourself, doing what you like. In the second video, with the aim of showing the personality, the personality of the target audience, dynamic and personality, which is young people, they want to be able to express themselves, express the youth and freedom in their personality, habits, even with a daily drink. And in the last video that still carries the message of Mr. Brown, along with showing the diversity in product lines, thus makes people freely choose the flavor, color, personality that they like, and their taste.

iTVC's overview

	iTVC1	iTVC2	iTVC3			
Idea	Awaken your instinct	Pop your lid, choose your taste	Choosing your coffee style			
Time	- May with cut versions (15s/Video)	In November	In early December			
Creative Direction	You can be a gentle girl, a cool tomboy, or you can be both. The choice is yours.	"Tricked" video makes viewers surprised and feel interesting.	Video encapsulated within 15-20 seconds about the life of young people.			
Treatment	Studio-based, set decor and props in the studio					

The communication theories are used:

The first one is the slice of life which is applied for 3 iTVCs, we can easily see that based on the problems that customers, target audiences face in daily life is a way to reach them very easily. This method is very close, along with creating empathy. Thereby can help the amount of interaction on social networking platforms increase naturally.

The second theory is emotion in advertising that is used to drive connection and awareness. People have several core emotions and emotional advertising seeks to draw on these feelings.

And Maslow's Hierarchy of Needs is also applied in the campaign's product. According to Maslow, human needs are divided into two main groups: basic needs and advanced needs (Meta needs). When basic needs such as eating, drinking, sleeping, resting... are met, people will gradually shift to higher needs such as the need for safety, respect, reputation, status, etc. So from this thing, we can see that people nowadays want to express themself and get recognized by others. Therefore, we applied this theory through iTVC.

The reason why we have this order of posting:

About the order of posting videos, the first reason is that it depends on the content orientation of the fanpage (Appendix for more details), the time and the content has been fixed. Nextly, Mr. Brown wanted to convey the main message of the campaign through the first video, then the brand's personality, to show youthfulness and dynamism, fresh colors. Thereby, it can make the brand image become closer and more familiar. The next stage will help the target audience better understand the product lines, which can help them understand somewhat from the outside image to the taste inside even if they haven't had the chance to enjoy it yet.

• The 1st iTVC: Which one are you?

IDEA: ĐÁNH THỨC BẢN NĂNG TRONG BẠN - Awaken Your Instinct

Creative Direction: You can be a gentle girl, a cool tomboy, or you can be both. The choice is yours.

Mr. Brown inspires users not to be limited by any standards and social norms when choosing their "taste" - their own identity.

The story focuses on diversity in three different topics: personality, career, and passion. The first half of the video portrays people with similar characteristics to the target audience of the brand: young & dynamic with diverse tastes and freely experiencing life. The second half taps in the product as a companion which inspires the characters to live their lives how they want.

Who defines you? Where do you belong? The choice is all yours.

Mood: Youthful, inspiring, and dynamic

Time: 45-60s

Treatment: Studio-based, set decor and props in the studio

Storyboard

After the idea was formed, we made the storyboard drawing process. The main designer will be based on the ideas and demos that our team has searched and come up with. Since the storyboard is an integral part of the production process, as well as in the process of working with customers, the process of ideating, finding information for demos, drawing storyboard, and sending it to the brand takes about a week.

Looking for ideas and storyboard for the set of photos

Our team will brainstorm together, list ideas, and the most suitable photo poses for each scene. Then the main designer of the team will draw the storyboard, after the storyboard is finished, it will be sent to the client for inspection and decision. In each context, our team will list the common activities of the target audience, so that we can think of shooting styles.

- In the school context, the activities/ angles that we will mainly exploit are: Doing homework, studying, chatting, dancing, eating.
- With the office context: Working, rest, meeting, office love, covid19 meeting, online meeting.
- With the street context: Traveling, art activities (dancing), outdoor activities (skating, cycling).

The reason that we choose these activities/ angles is these things are mainly/ popular activities in their daily, and that's also an important part of their work.

The process of choosing costumes and models:

Admicro x Mr Brown I Thông tin mẫu bô ảnh lifestyle

For our team, this is quite a difficult phase and takes a lot of time because it depends a lot on the response time from the client-side.

This phase was carried out in 2 weeks, with the context of the COVID-19 epidemic being very complicated, the process of choosing a model was also very difficult. In terms of costumes, with the target audience being students and office workers, this costume serves 3 main contexts: School, Office, and Street. We have to choose clothes that match the model, the context as well as the time.

However, after a while of planning and preparing tools, costumes, and models, the model was completed. Then the COVID-19 epidemic broke out, so the set of photos had to be temporarily suspended.

The Concept Photo

With the concept "Awakening the taste for freedom/Awake your lifestyle. This set of photos was made to serve Mr. Brown's fanpage post.

Shooting 6 different layouts including layout each product 1, 3 general layouts for products.

Concept: Awakening the taste for freedom

Time: 1,5 months (From May - middle June)

Description: A set of photos in the style of "dynamic" in "static", each can of coffee placed next to the coffee cup shot up as if awakening, bringing a lively feeling full of energy.

Mood: Cool, healthy, awake

Main color: Product colors (brown, red, blue)

Ideation stage

For the purpose of making images to post on fanpage, the images must be very catchy and eye-catching. The process of brainstorming together has helped our team come up with many unique and innovative ideas, but for difficult customers like Mr. Brown, the idea still has to be within a certain limit. Focusing mainly on creating stylish, personality, youthful, modern, and fresh images. The photos must be associated with the working context of the target audience, which are students and office workers. Giving props such as pens, glasses, laptops, or even cakes and coffee cups to show the closest things to students or office workers.

In detail, wake up and freedom in the concept is shown through the tone of color, the props in the photo, the image carries the positive, dynamic and creative energy of youth.

Props selection and shooting process:

The selection of props is also very difficult when working with a difficult client like Mr. Brown. Our team has to choose very carefully from the pens to the smallest things in the set to bring satisfaction and perfection to the set.

Unlike the lifestyle photo series, this series of photos was taken entirely in the studio, so the problem of the epidemic was solved very easily. Besides, the equipment in the studio supports our team a lot during the shooting process.

5.1.3 Key Visual

Key visual is an indispensable activity in all campaigns. In this campaign, key visual is used throughout the duration of the campaign, because the purpose of key visual production is for banner ad/ display ad, Facebook fanpage. This is also part of the "face" of the campaign, as well as Mr. Brown. At the request of the customer, we focus on the color elements related mainly to Mr. Brown's products, as well as focus on the adjectives that express the main personality of the brand such as youthfulness, energy, dynamic, and creative. This key visual is decided based on the purpose of serving banners posted on well-known websites, online newspapers and as Mr. Brown's Facebook photo cover. In general, all designs are based on the image of the brand as well as the tone of voice of Mr. Brown.

Option design:

Design Concept (OPTION 1) Mr. Brown coffee cans were hovering over the entire frame. Complementing the product with other details such as coffee beans, milk, ice, ingredients. Specifically: Blue Mountain: Coffee beans, ice (put around / next to cans), sugar Cappuccino: Coffee beans, fresh milk, cream foam Chocolate: Coffee beans, broken chocolate, cocoa powder, fresh vanilla branches Typo striking block with brown - white tone represents the message. The background uses modern, complementary pastel palettes.

Design Concept (OPTION 2): The background for each product uses the own lightest complementary color. Visual includes coffee cans placed in the center of the image. Part of a can of coffee is designed into the ingredients that make up the product. Blue Mountain cans with lower half of Arabica coffee beans. Chocolate flavored cans with half a stem appear in coffee beans, broken chocolate pieces, cocoa powder, and fresh vanilla branches. Cappuccino can with coffee beans, fresh milk, and cream foam. In the middle is the main message of the brand.

Set of photos: STAY CONSCIOUS AS IF USING ALARMS - TINH NHƯ BÁO THỨC

Purpose: One of the key activation communications for the main concept of the campaign, creating a special impression on the brand after a long time of reminding.

Media channel:

- Post photos on the brand's fanpage
- Facebook engagement and reach ads
- Banner ADX

Design ideas:

To represent coffee cans Mr. Brown acts as an alarm, Mr. Brown directly paints alarms on different coffee cans.

Each can when the alarm will emit different messages suitable for the office audience:

To express Mr. Brown coffee can acts as an alarm, painting the alarm directly on the different coffee cans of Mr. Brown. Each can go with different messages suitable for users:

The album includes 3 photos. Each photo will be a product with a different message:

"Get up! Makeup and then do reports!"

"Ring Ring! It's time to go to work, beautiful girl."

"Brother, it's bright. Get up and go pick up your girlfriend!"

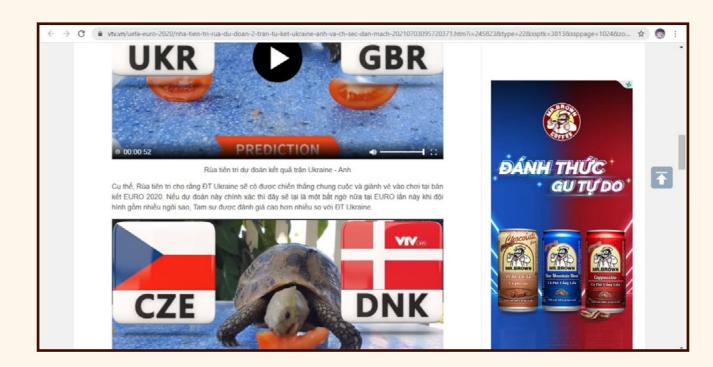

Banner/ display ad (Online Advertising)

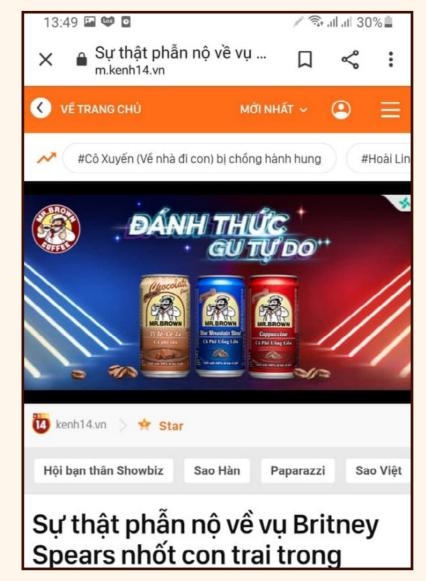

The campaign's online advertising promotes running banner/display ads. Promotional channels are online newspapers, these newspapers must match the personality and interests of the target audience who are young people (Kenh14 is an example).

Below are pictures of Online Advertising activities in newspapers:

6.2 Stakeholder Engagement Plan

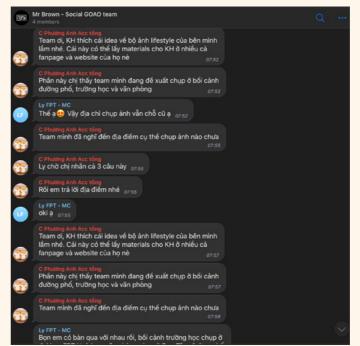

In this project, our team is very fortunate to have collaborated and worked with two partners Admicro and Mr. Brown. In the process of doing the work, disagreement between our team and the partners is inevitable, because each side's thinking is very different and everyone has their own opinions. (Specifically, the stage of developing and providing ideas to the partners encountered some inconsistencies, as well as dissatisfaction.)

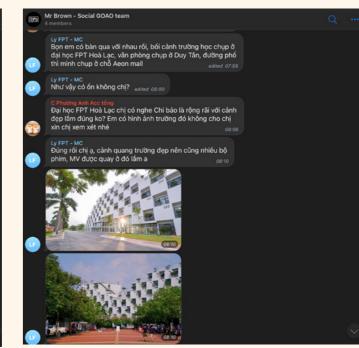

Besides the negative stakeholder issues in the early stages of the campaign, our team was well aware of the client's wishes and ideas, so the issue was resolved. Positive feedback from stakeholders makes us feel very happy and motivated to work more.

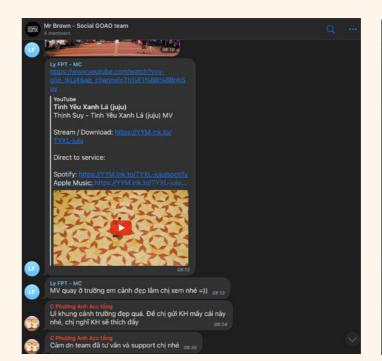

Here is our summary of the feedback from Admicro and Mr. Brown.

Mr. Brown's Survey for Admicro

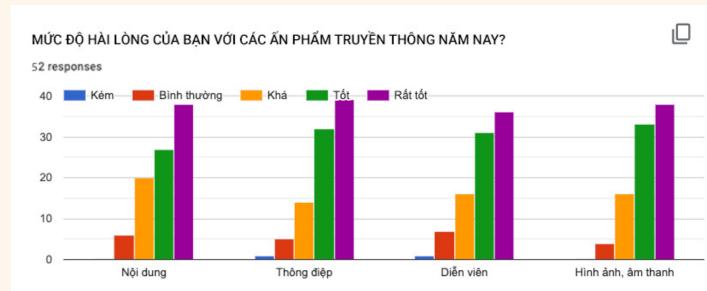

Below is Admicro's survey of communication quality for employees of Mr. Brown. Through which we know the satisfaction as well as the responsibility of Mr. Brown for Admicro, and from there the two sides can be ready for the next cooperation.

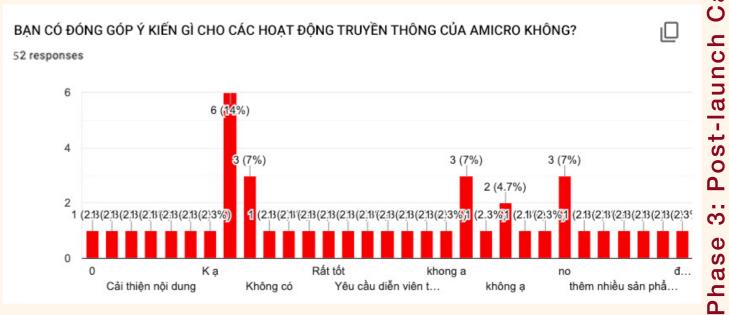

- More than 80% of Mr. Brown knows that Admicro is the unit responsible for communications for Mr. Brown.
- Nearly 20% of Mr. Brown doesn't know this.

- 87% Mr. Brown said that this year's campaign has improved place. That shows that the campaign has successfully entered the early stages.
- Only 13% of Mr. Brown doesn't feel the campaign has improved.

Admicro's media publications this year are mostly well-reviewed and very good. Here we can see that Admicro has gained the majority of trust from Mr. Brown.

The majority have no comments and are very satisfied with Admicro's communication activities. There are some contributions to the content, and the product needs improvement.

Phase 4: Reflections & Recommendations

- Reflections on Project Work
- Recommendations for Future Projects

7.1 Reflections on Project Work

Methods to communicate effectively with team members

Teamwork is very important when it comes to good communication skills. In general, in terms of our team, communication is not difficult because the members of the group are people who have worked together before. However, there are still things that need to be noted to make the working process become more smooth and smooth.

The first is we need to continuously update each person's work. Because of the COVID-19 pandemic, every person in a different place has a problem or a problem that needs to be solved right away. Usually, when you talk to the circulation will solve the problem quicker and easier. It can be said that this problem, belonging to the objective category, is difficult for us to solve. However, we have tried to solve this by spending 3-4 online meetings per week to report and capture the status of the work. Regular online meetings help us to grasp each person's problem immediately and solve it more easily.

Because our team has worked together before, dividing the work is not difficult for us. However, we usually just assign work to each other via Facebook messages and submit products through it. Because using Facebook's message for work is quite unprofessional because it is easy to drift away from important information. With Admicro's recommendation, we learned how to work with each other via Telegram and split the work through Trello. Project management tools such as Trello are a great way to coordinate and streamline team projects. They make it easy for teams to track the progress of a project as you can assign tasks to individuals, set a due date for that task, and chat about that task in its specific "card". It's a very transparent way for an entire team to communicate

effectively on a project and move it swiftly from one stage to the next.

The second is the problem of using work management tools.

The third is always to be proactive at work.

Being proactive may not eliminate all issues, but it can help you resolve issues more effectively and efficiently. When working with Mr. Brown for the first time, we are often passive in waiting for customers to send feedback. This is when some of our jobs are delayed for a long time. Right after that, we knew we needed to be more proactive, instead of waiting for us to try to ask and prompt customers to send feedback. So my work can become smoother.

The relationship between theory and practice

The last lesson we learned from this campaign was a theory that would never be able to accomplish the best if it wasn't actually applied. Every member of our group has had experience working before that. But it was an intern and not directly managing a serious project, so we had a lot of surprises in this process. The knowledge of the class has helped us a great deal, but that knowledge is still in common. Besides, the use of that knowledge has limited restrictions. We realize that the best way to carry out an effective operation is to withstand a solid field of expertise, and actively participate in various mechanisms to understand the work and gain more experience for the next use. For our group, this is the most valuable lesson.

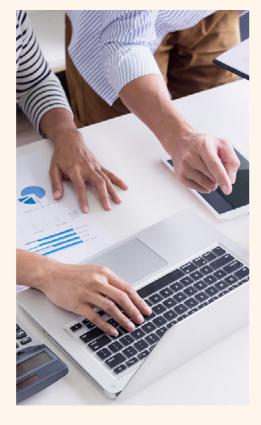

7.2 Recommendations for Future Projects

Company Culture

About Admicro

In the stage of pitching ideas with customers, because the time was quite fast, Admicro only exchanged information via group chat, official information about the iTVC product implementation plan. That led to internal miscommunication so that the original plan to shoot the iTVC in Hanoi was moved to Saigon and had to extend the filming time. This has caused the filming of the iTVC to be wasted, causing damage to Admicro.

Here, we recommend that Admicro should manage information in a more systematic and professional manner. All closed information needs to be confirmed. Official mail flow, avoiding the case of unclear and inconsistent information. Confirmation via official email and cc to each management department in charge of the project will help the information flow to be more accurate, clear, and transparent.

About Mr. Brown

Mr. Brown is heavily influenced by the Taiwanese parent company, so the style and culture of the company still bear the simplicity of the parent company. As can be seen, in every idea and plan Mr. Brown always chooses safety and simplicity. This makes the campaign too safe and not very prominent. Therefore, Mr. Brown needs to consider renewing themself. The company should make a difference from the parent company and bring more Vietnamese cultural features into the product image.

Besides, currently Mr. Brown is so focused on distributing products to convenience stores that he forgot to focus much on social media. We suggest that in the future the company should promote its activities as well as create an image on social media more.

Social Media Content

With Facebook, the company can keep the voice and format of each post. However, having only one post a week to change awareness is too little. The best posting recipe is 3 to 4 posts a week. Include 1 to 2 product introductions, 1 awareness change post, and 1 interaction increase post.

In the future, the company should push the number of posts up more to increase the team's reach to customers. In addition, the content of the article should be creative, catch the trend, and be more diverse in terms of images. Currently Mr. Brown is using only 2 main formats, single and multi. The company should consider developing other formats like carousel and animation.

With Youtube, Mr. Brown also has his own Youtube page but has not been promoted and developed. 1/4 of the world's population is watching YouTube every day. The YouTube platform is growing strongly, which means that the effectiveness of YouTube Ads is not low. Therefore, the company should have more policies to develop this inherent platform.

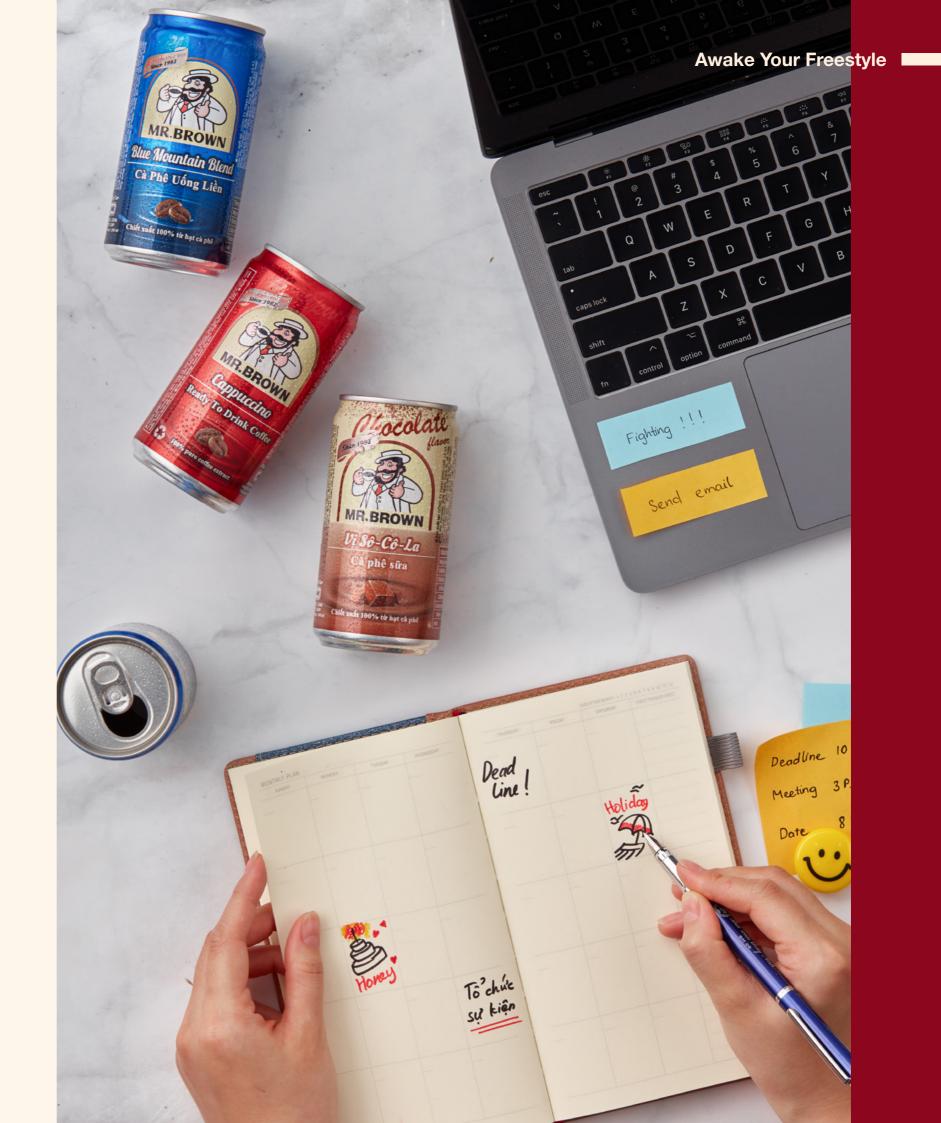

The company may consider doing more research on Instagram and Tik Tok because marketing on Instagram and Tik Tok is getting younger and more popular among young people. Due to limited staff and time in the campaign, content development on these platforms has not yet been carried out. So Mr. Brown needs to consider this.

iTVC's Script

• iTVC 1:

[Voice] Who says feminine girls can't be tough? A girl is sobbing while watching a touching movie, the camera angle zooming in for a close-up of her teary eyes, then zooming out to change the scene. Now it's still the same girl but she's rubbing her eyes because of the sawdust when she builds her own DIY (do-it-yourself) bookshelf.

[Voice] Who says workaholics can't be kitchen lovers? A female boss is busy working at the company, when she moves to the next frame, steps into her kitchen at home, takes off her blazer, puts on her apron, rolls up her sleeves, and excitedly kneads the cake dough.

[Voice] Who says quiet people don't have exciting moments? A pianist is performing, the whole stage is in silence, only the sound of each piano key echoes in the spotlight. When his finger touches the last note of the song, he suddenly takes off his suit, inside is a hip-hop outfit. He swings his body into a breakdance. The stage lit up, and his hip-hop dance team appeared with him to perform on stage.

[Voice] Who says you can't be both? No one can label you any standard, because who you are is defined by you. The DIY girl pops the lid of Mr.Brown canned coffee while taking a short break. The flavory sip of coffee awakens her to continue the project. At the end of a board meeting, the female boss takes a sip of Mr. Brown canned coffee. As she drinks she feels an encouragement inside of her. She takes out a box of cupcakes she made herself and shares them with her colleagues. Everyone is surprisingly delighted, enjoying the cake with her. While on stage, the pianist/dancer used Mr. Brown canned coffee as the main prop to accompany his dance moves. The can spins and swings along with his beautiful movements, shining in the spotlight.

[Voice] Mr. Brown - Awaken the gout of freedom! End frame key visual and slogan appear.

8.2. Phase 2

iTVC's Script

• iTVC 2:

The first scene shows a person opening a lid in order to raise the viewer's curiosity. This scene is repeated with the next 3 people.

Treatment: The frame splits in triple.

The first scene shows a person opening a lid in order to raise the viewer's curiosity. This scene is repeated with the next 3 people.

Treatment: The frame splits in triple.

The final scene is revealed with each person placing Mr. Brown canned coffee in different settings: in the office, at the picnic, at street vendors. Treatment: The last scene returns to full screen, using green screen.

• iTVC 3:

The first scene shows 3 characters at a convenience store. They all seem like they're looking for something. They stop in front of the store's cooler, seemingly to see what they want.

Treatment: Quick introduction for 3 characters including a traveler, an office girl, a dancer. Introduction option 1: Introduce each person with text + freeze-frame effect (Dat - 25 years - traveler; Duyen - 28 years - designer; Chi - 22 years old - college student) on different backgrounds of the convenience store.

Next, each character opens the cooler and reaches inside to take what they have chosen.

In the end, each of them takes out a different coffee can of Mr. Brown simultaneously. They contentedly look at the can and proceed to the check-out counter.
